

SHORT TITLE: Parvis v. Watters	CASE NUMBER: 26FAM01592
-----------------------------------	----------------------------

ATTACHMENT (Number): 29.

(This Attachment may be used with any Judicial Council form.)

Respondent objects to a Commissioner hearing this matter, and requests a long-cause hearing with a time estimate of four hours-- two hours per side.

Respondent contends there are substantial exhibits to be submitted that will show Petitioner to be a felon who has spent as much as ten years of her 34-year life in state and federal prisons, with an extensive history of dishonesty and fabrications that led to her convictions. The relationship only began because Petitioner created a fake identity as a Harvard-trained medical doctor and researcher, complete with legitimate-looking but fake Harvard web pages that added to her legend. Petitioner was in Harvard Extension, which any member of the public can enroll in, and never went to the actual Harvard University, much less obtained dual M.D. and Ph.D. degrees. Petitioner later sent Respondent a completely fabricated c.v/resume, which shows her pattern of dishonest, manipulative behavior that is continuing with this false petition.

The claimed incidents of tracking and threats to release lewd video never happened. Petitioner stated in court filings regarding her sentencing that she suffers from Borderline Personality Disorder and Bipolar Disorder, both of which may impact her perceptions.

This action is a false, malicious effort to cancel and silence one of her critics for having the courage to share his story online in a Hall of Shame. The Hall of Shame is, as stated directly on the Hall of Shame, part Public Service Announcement and part retribution. Respondent has merely posted a passive web page describing his experience with Petitioner and quoting persons who reach out to Respondent because they found the web page. This is privileged conduct and free speech, and cannot be used as a basis for the requested relief.
